Milam To Get 11.1 Miles Roadway Under State Plan

Texas Highway Commission has taken the first step to inaugurate a new two year Farm-to-Market Road Program for Texas. E. H. Thornton, Jr., chairman of the Highway Commission, stated that the funds for this 1957 and 1958 program are derived from federal funds, matched with state highway funds on a dollar-for-dollar basis.

John E. Blair, district engineer of the Texas Highway Department at Bryan, has stated that the following farm-to-market road from State Highway 36 near Cameron, Northwest to F. M. Road 485 at Yarellton, a distance of approximately 11.1 miles.

Blair stated that the Commission has authorized the development of some area roads which will serve the dual purpose of providing service to the adjacent land as well as aiding in the development of the entire state.

It was announced that work will begin on this project as soon as final planning is completed and necessary right of way secured. Resident Engineer Joe G. Hanover will be in charge of the work in this area.

Milam County Judge Charles C. Smith, Jr., explained that the Highway Commission order designating this project is conditioned on Milam County furnishing all required right-of-way (100 feet in width) clear of obstructions and free of cost to the State.

Judge Smith commented that the construction costs alone would amount to approximately \$300,000.00 due to crossing Elm Creek. The judge further commented, "This is the largest single farm-to-market road project in the history of our county. To get the most permissims you've got to cultivate the tree."

Many Cameron Students Choose Houston University

Nine Cameron students have enrolled at the University of Houston according to R. A. Vitulli, registrar.

They are Frank J. Ward, sophomore auto upholstery student; Gene Senkel, sophomore photography major; John E. Dusek, Jr. senior diesel engineering student; Edward F. Zarosky, freshman radio-television technology student; Willis M. Phipps, sophomore mechanical engineering student; Delbert L. Walston, freshman business administration student; Mar-ye E. Drushel, freshman secretarial administration major; Beverly Freeman, junior elementary education major; Robert E. Burnett, freshman machine shop student.

Registering Made Easy For Milam Eighteen Year Olds

Milam's eighteen year olds do not have to come to Cameron for registration. The board has made it convenient for the young men by appointing registrars throughout the county, the Local Board Office made it plain this week.

In Rockdale the registrar is Roy Leonard Allen, located over the Prewitt Drug Store.

In Burlington contact Walter G. Marak in the Post office there. At Milano see Leon M. Peeples at the Postoffice.

Thorndale registrar is Norman Clement at the Thorndale Bank.

Buckholts young men may register with Floyd Stark at his office.

Any of the registrars will be happy to assist the young men of their communities. Beginning December 3, the Local Board Of-

All-School Carnival To Be Held At Cameron Schools Dec. 6

It will be "Chili" weather on Thursday night, December 6, around the Cameron Schools. Preceding the evening session of the all-school carnival the Ada Henderson and Ben Milam Cafeterias will be serving chili to the general public at fifty-cents (with seconds a possibility) says cafeteria manager, Leon Brady.

Patriotic Group Elects Officers

Cameron's Mexican Patriotic Committee which carried on at the helm of the organization during 1956 have all been re-elected for the '57 term of office.

Estanislado Villanueva is president; Rafael Barcenos, vice president; Isidoro Tamez, secretary; Monico Martinez, assistant secretary; Antonio Cabrera, treasurer and J. D. Soriano, Interpreter. Trustees re-elected are Isabel Soriano, Adolfo Rivera, Miguel Molina, Francisco Cruz, Reynaldo Alfaro, Simon Rangel, Francisco Corona, Elpidio Estrella, Ramon Jaramillo, Domingo Sanchez, Miguel Salazar and Daniel Garcia.

Fire Destroys Home Of Rev. Lee Young Wed. Morn

Fire completely destroyed the eight room home of Rev. and Mrs. Lee Young at the dead end of West 12th. Street in Cameron at about 7:30 Wednesday morning.

Young, 70, was in the lot picking up garbage when the fire apparently started from the wood fire in the little sheet metal stove, catching in the attic, Young said.

Mary Smith, a visitor, from Caldwell was burned on the hand and foot in her efforts at successfully keeping the 72 year old Mrs. Young from running back into the fire after all were clear. The woman kept shouting about the insurance policy she wanted to save and saying "This is my day to die." No injuries other than the visitor reported were noted.

A widowed daughter of the couple lives with eight children next door. Her home was the main object of attention from the fire department and was undamaged. A second alarm brought additional water to the fire where no mains exist.

Young is now a farmer and independent trucker with evangelism as part of his work. He was for fourteen years in the full time ministry with one charge at the Progressive Baptist Church here. His last evangelistic mission was at Brookshire, Texas.

As usual the gymnasium will be the central theater of activities in the annual all-school carnival.

Two sessions of the carnival are scheduled to run from 1:45 to 3:30 p.m. and a night session from 6:30 to 9 p.m.

Coronation of the carnival queen will be at 9 p.m. This ceremony is under the chairmanship of Miss Dallis Young.

A carnival bulletin put out at the school directs that teachers not schedule anything very important for their classes on that date and that classes will go on as usual. Only those who are actually needed at the gymnasium for work on their class properties for the festivities will be released from classes to prepare for the fun night.

Activities of the various classes are:

ADA HENDERSON

Grade 4 will sell cotton candy, cookies and home made candy and operate a grab bag.

Grade 5 will have a cake and homemade candy sale plus a grab bag.

Grade 6 will operate a dart board and sell cold drinks and sandwiches.

Grade 7 will sell pie and coffee and also sell pie in the cafeteria during the chili supper.

Grade 8 will have a whole cake and pie sale and kolaches.

The eighth graders will also indulge in "fortune telling."

BEN MILAM

The first grade will open a "Country Store."

The second graders will indulge in the fine art of "picking a pocket."

A fish pond will be operated by the third graders.

YOE HIGH

In the high school section each grade will have four activities with the Seniors presenting a play in the band room. 2. Food booth, 3. Football toss and 4. Fortune telling.

Juniors will have an ALL STAR MINSTREL in the Band hall. 2. A bazaar booth, 3. Milk bottles and 4. A ducking stool.

Sophomores will operate a basketball throw, 2. A variety show in the Clothing lab, 3. Toss game and another activity as yet undecided upon.

Freshmen will present a variety show on the stage in the gymnasium, 2. Grab bag, 3. Fish Pond and 4. Pop Corn stand.

As usual there will be fun for all and funds for the cafeteria free meal fund and for the student activity fund.

A special committee has been appointed by the superintendent to count all money.

Eleven Deer Shot By 20-Buck Club

Frank McLerran arrived in Cameron Saturday morning with the report he had bagged his two bucks for the season while other members of the Twenty Buck Club had raised the member's total kill to 11 deer.

He reported many deer in the hill country of Llano County where the club members were hunting. Also reported was an extra large fawn crop. Mr. McLerran said the deer were all extra fat as currently there were plenty of acorns and water in the area in which they hunted.

The Cameron hunter bagged his first deer, an eight-pointer, at 4 p.m. Friday, November 16, and his second, an 11-point buck, at 6:55 a.m. Saturday, November 17.

Other members of the club, who bagged deer, were Fred McLerran of Temple, two six point deer; Paul Zucha of Wilson Store, one six-point and one five-point; Jerry Bartek of Temple with one six-point and one three-point; L. B. Cassburg of Austin, one four-point and one six-point, and Felix Neineist of Wilson's Store, one five-point buck.

Unsuccessful on the hunt up until the time Mr. McLerran left the camp were Fritz Snyder of Meek's Community, Ben Wyman of Wilson Store, Burrell McLerran of Freeport and Bill Kelm of Meek's Community.

Final '56 Farm Bureau Member Meet Tonight

Mrs. Berniece Charles will be in charge of the Farm Bureau's monthly meeting program at the Yoe High Agriculture Building at 7:30 p.m. tonight (Thursday).

Colonel O. G. Tunlinson will be in charge of the meeting and S. W. 'Shep' McClaren Jr., who was re-elected for a fourth term as District 8 Director of the Texas Farm Bureau at its Houston meeting will be present to report along with others who attended that meet on its work. 634 voting delegates were present at the state meet.

Due to the Christmas holidays there will be no December membership meeting of the Bureau. Only the regular board meeting will be held next month Miss Lelora Bickett office secretary said.

Quarterback Club

Cameron Quarterback Club will hold its annual banquet following the Christmas holidays rather than on December 17 as previously designated in The Herald.

The Wee Hours

By Your Police Reporter

Mr. and Mrs. Hubert Shuffield of 1408 N. Travis Street were awakened about 2 a.m. last Saturday morning, November 24, with the glare of an automobile headlight shining in a window.

Emerging from the house, they found Night Chief "Brandy" Brandenburg investigating an accident. The car with the glaring headlight according to the investigating officer had left skid marks for 111 feet on the paved street, jumped the curb, left an additional 78 feet of skid marks on the lawns, knocked down two rose bushes, a flower bed, a fence and a tree of six inches in diameter before stopping.

Upon leaving the house, Mr. Shuffield said that another yard and the car would have been inside his house. True enough for the car was only 23 inches from his window. Furthermore, it was only four and a half feet from the back of the auto in Mr. Shuffield's driveway.

The driver explained, "I was lucky; No one was injured."

United Fund Opens Monday

ROCKING AND ROLLING at Yoe High Gym will begin at 6:30 Thursday night, December 6 for the evening session of the all school carnival.

Pictured above is an "Academic" lesson in rocking and rolling given during the 1955 session of school carnival.

Basketball At Cameron To Get Underway Tuesday, December 4

Coaches Jim Speer and Murphy Webster were issuing uniforms to the Yoemen thinly clad this week in preparation for the basketball season.

Cameron will play on a possible 17 dates with three of these still open according to Coach Speer. These three dates will be filled if possible and are on January 18, January 22 and February 8.

Starting line-ups for Cameron's first string and for the "B" team have not yet been selected. However, Coach Speer and Coach Webster expressed hopes of having two outstanding squads ready for battle in their opening game which will be with Rockdale at the Rockdale Gymnasium on next Tuesday night, December 4.

Complete schedule for the Yoemen as it now stands will be as follows:

Yoemen Defeat Pirates 13-0 In Final Game Of '56 Season

Cameron Yoemen closed their 1956 football season last Friday night at the La Vega Athletic Field as they beat the Pirates in a decisive victory of 13-0. As has been the case in all of Cameron's final games, they put forth their best performance in the second half during which they accounted for their complete tally of points.

Early in the opening quarter and upon their second possession of the ball, the Yoemen advanced to the three yard line but tactics were too great for the Pirates as they fell before the Yoemen 13-0.

Yoemen started their score early in the second half after Yoe Left End George Zarosky tackled Pirate Glen Whalley on his own 29 yard line. Fourth down and the ball went over. Carries by Guy Dillon and Warren Rinn were good for the tally with Dillon getting the credit. Extra point on this occasion was attempted by a Dillon run but failed as the Yoemen went ahead 6-0.

One of those few oddities which occur in all games came on the following kick-off by Dillon, who had to kick four successive times with each of the first three called back with penalties against one of the two teams. However, the fourth kick was received by Jackie Culverhouse, who returned to his own 27-yard line.

Cameron's line held and after three plays the Pirates were back to their 26 from where Whalley's kick went out on their own 45-yard line. Failing to gain a first down on the return, Jesse Kirk punted to the 18 and two plays later it was again the Yoemen's ball following another Pirate fumble. Rinn took the handoff from Bobby Elliott and circled his left end for another score. Dillon's kick for the extra point this time was good as the pigskin sailed through the uprights.

Not once during the entire game did the Cameron line and line backers allow the Pirates to threaten. Raymond Tepera at guard gave the best performance of any of the Yoemen on defensive plays. However, he was ably assisted throughout the game by Zarosky, John Solomon, Paul Hoelscher, Monroe Bayer, Ray Green, Dillon, Rinn, Johnny Davis, Arthur Marak, who also performed well in broken field running, Gene Hillman and Lee Holbanks and stood on the defensive like the Rock of Gibraltar. Such

Others prepared for action against the Pirates were Hubert

Cameron Enters Spirit Of Xmas

Christmas season in Cameron and all of Milam County gets into full swing on Friday, December 7, with a parade in downtown Cameron. Banks, stores, shops and business houses of all descriptions are getting into the Christmas spirit with their decorations and displays.

Leading factor in Cameron toward bringing out the Christmas spirit is taken by the Chamber of Commerce. Directors and members of this body through contacts with the various businesses are endeavoring to provide shoppers with any item they could get even on Fifth Avenue in New York City.

Chamber of Commerce officials are requesting patrons of Cameron stores to inquire of local business houses concerning monetary gifts to be distributed on the afternoon of Friday, December 7. All participating Chamber members will be more than glad to explain the eligibility rules, it was advised.

Introducing

A daughter was born to S-Sgt. and Mrs. John B. Sapp of Florida on Sunday, November 25.

Sgt. Sapp is the son of Mr. and Mrs. J. B. Sapp of Cameron. The mother's parents are Mr. and Mrs. Harrison of Wisconsin.

Between December 3 and December 14, citizens in North Milam County will once again be contacted for charitable donations. Unlike those many times of such contacts in the past, this one time will be unique in that it is completely different.

Yes, you will still be asked to give money from that which we may have planned to use for a show, steaks for the entire family or even for a new family project such as a home or auto. Still this one time will be different in that this one request fulfills the many requests you have received during an entire year prior to this United Fund Drive of North Milam County.

Each and every worthy charitable organization has been contacted and asked to join the United Fund. By so doing, you are asked only once annually to donate generously to charitable projects; not asked day in and day out but many and sundry persons to give to this and that cause. Not only does the United Fund eliminate answering calls at all hours but it makes it possible for business men and women to make their donations in one contribution which benefits all worthy causes. It is one which at the same time can and should be large enough to remember through the year until the time when it is deducted from income tax returns.

A total of \$13,634 will be sought by those heading the United Fund Drive Of North Milam County. This total will be allocated to Boy Scouts, \$2,800; Girl Scouts, \$1,000; Salvation Army, \$1,200; Red Cross, \$4,000; Heart Fund, \$200; Cancer Fund, \$300; Library Fund, \$1,834; Local Charities, \$1,500, and annual operational expense fund, \$800.

K of C Members Hold Exemplification

Knights of Columbus exemplification of the first degree was held at the Cameron K of C Hall Thursday night, November 22. The degree work was conducted by local officers of the council.

Following the exemplification, members dined on homemade stew and watched the 1955 Southwest Conference Football Highlights. Out of town visitors were Willard Green, district deputy, and Herman Beach, Grand Knight, both of Temple.

More Surplus Food Available To Schools Following Move Of Facilities

Cameron and Milam school children will not fare so badly, according to Hinton Pruett, county superintendent of schools, because the Surplus Commodity Distribution center in Cameron for Milam and nine surrounding counties has been eliminated.

A truck and trailer arrived at the courthouse last week and school buses started arriving. Pruett personally supervised the loading of 1,800 pounds of turkey and 1,500 pounds of cabbage and so forth onto the county school buses for consumption in the school cafeterias from whence they came.

"We can actually get a little more commodities now than when we had the distribution point here," said Pruett. It works out this way: Just like in the commercial business the freight rates will be more favorable for the Waco office because for instance they can order out a carload of items like apples instead of split cars, it's easier, quicker and of course, it follows, cheaper that way. This means they can buy more of the produce and thus make more of it available to the schools.

Milam County schools now get their surplus commodities from

Waco where, like it was here, they are in charge of the office of the county school superintendent.

Cameron was eliminated as a distribution center for a ten county area when Miss Veronica Miehalka resigned her post after nearly five years in charge of the Cameron office for the state.

Arthur Balhorn Jumps To Death

Arthur A. Balhorn, 64 of Rosebud jumped to his death Tuesday, November 27, from his hospital room in Waco shortly after being admitted to the hospital. His body was found beneath his second story room on a concrete walk. Mr. Balhorn was a barber in Rosebud.

Justice of Peace Ray Mormino of Waco returned a verdict of suicide after investigating the death.

Green Funeral Home of Rosebud will be in charge of funeral services.

Cameron 4-H Members Receive Checks For Prized Poultry

Johnny Ray and Jeanette Richter of Rt. 1, Cameron received checks this week for entries in the junior livestock and poultry auction sales during the 1956 State Fair. Total of checks mailed to Texas boys and girls was \$210,140.22.

Both Richters, members of the 4-H Club won blue ribbons with their pens of three turkey hens and Johnny Ray's white tom entry took a white ribbon.

The total was the largest in the history of the junior auctions at the Fair, topping the previous high of \$176,975 in 1955.

The junior show at this year's Fair was the largest ever presented in Texas, said Ray W. Wilson, the Fair's livestock manager.

A total of 1,146 4-H Club boys and girls and Future Farmers took part, he reported. They came from 196 of 254 counties in the state.

In the junior livestock auction sale, 510 steers were sold for \$174,087.29, 248 lambs for \$8,260.56, and 412 pigs for \$18,334.74, for a total of \$200,682.69.

The turkey auction brought a total of \$5,358.23 for 435 turkeys, and the broiler sale brought \$4,099.50 for 1,680 broilers.

Buyers paid a substantial premium over the market price to offer encouragement and incentive to the boys and girls who had raised their animals and fowl as Future Farmer or 4-H club projects, Wilson said.

Destroying Cotton Stalks

November 30 is the deadline for destroying cotton stalks under the pink bollworm quarantine law. Stalks may be destroyed by plowing under or by using a rotary type stalk shredder. The landowner and tenant are held responsible jointly for complying with the law.

Texans Entering Armed Forces

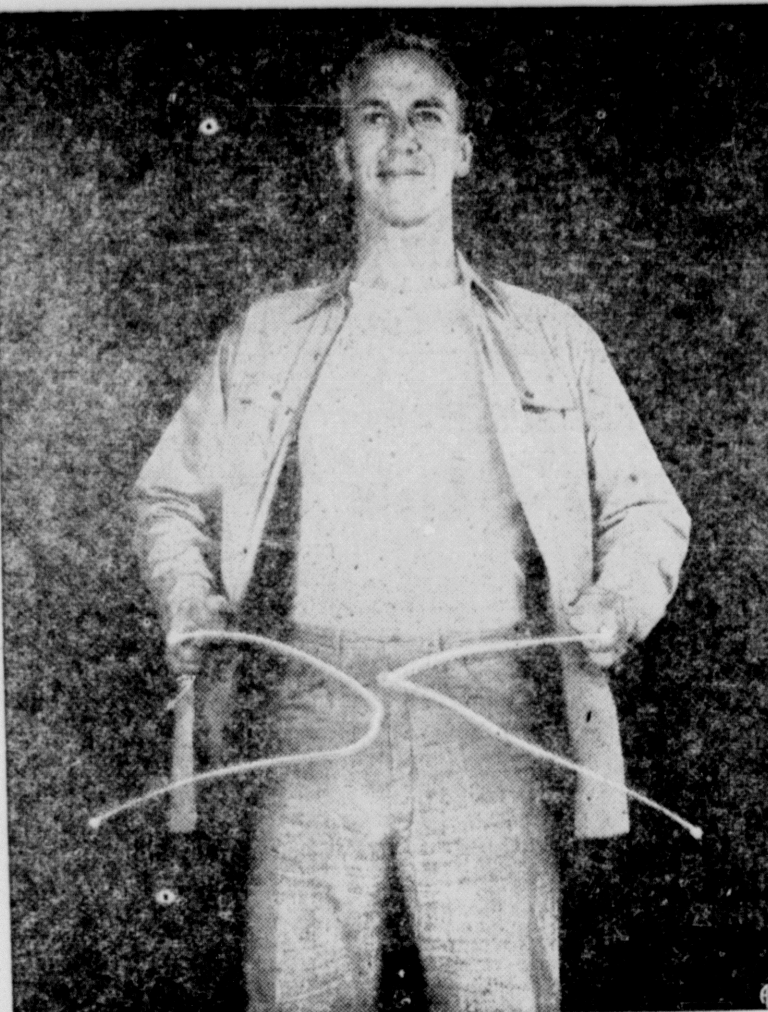

A total of 4,126 Texans entered the armed forces during October, and 3,850 were separated from active service during the same time.

Of the 4,126 entries into the uniformed services from Texas during October, only 848 were through the draft boards, the remaining 3,278 individuals going in to uniform by enlistment or other voluntary means.

State Selective Service forwarded 1,343 men to armed forces joint examining and induction stations during October for pre-induction physical and mental examinations. Of this number, 829 were found acceptable, the remaining 514 unacceptable, a rejection rate of approximately 38 per cent.

Of the 848 men inducted through the draft boards in October, six were inducted from the Texas National Guard upon certification that they had failed to serve satisfactorily. This is authorized by Section 1631.8 of the Selective Service regulations.

New No-Button Work Shirt Offers Extra Cleanliness, Easier Care

A new type of work shirt without buttons is now in the stores, and it brings to housewives a greater freedom from frequent laundering and mending than they have ever enjoyed, according to a report from leading work clothing manufacturers.

These new shirts have snap fasteners instead of buttons, thus eliminating a number of ironing and button-replacement problems and making possible a longer period of wearing with less soiling by hands. The fasteners are completely safe in laundering—they will not rust and will go through the wringer without damage.

Thanks to this fastener feature on these new shirts, the wearer can open them with a quick tug rather than by individual handling, as is necessary with buttons. This is described as being an added safety factor in instances where clothing is accidentally snagged in working machinery.

Work clothing departments and stores in both city and farm areas are now stocking these shirts as a regular item.

According to the manufacturer, Scovill Manufacturing Company (Waterbury, Conn.), the Gripper snap fasteners on these shirts are an advance in work clothing design following years of testing. The new patented radial rib design of the fasteners provides the extra strength necessary to make these shirts possible.

Winter Grain Mites Can Be Controlled

These mites are occurring on winter grain plants on several local farms. It is very difficult to detect the mites but their presence is indicated when the tips of the leaves turn brown.

The infested plants are stunted and will die if infestations become severe. Young plants are more susceptible to damage from the mites than are older plants.

The mites are very small, 1-32 to 1-16 inch long, adults have reddish-orange legs and their bodies are dark brown with a bluish cast. They feed during the night but may be found around the base of the plants and under clods during the day. Cold weather is an incentive to reproduction and growth of the mites. They exist

through the summer as eggs on the old plants and hatch the following fall.

Parathion at the rate of one pint of material per acre will control the mites.

Planet means wanderer.

cook Electrically, of course..

It's a far cry from the early days of the 17th century when the Pilgrims had to do their cooking the hard way. But today's Pilgrim has really made progress... thanks to electricity! That Thanksgiving turkey stays juicy and tasty when it is baked in an electric oven that's insulated on all six sides... for faster, cooler, healthier cooking. It'll be a day for real thanksgiving... when you see your appliance dealer for an electric range. LIVE BETTER, ELECTRICALLY!

Another sign of Pilgrim's progress: the forever-fresh kitchen! 'Cause Reddy Kilowatt cooks so clean! Means less house-cleaning time, less redecorating expense.

Third Beef Week in Texas Proclaimed

Governor Allan Shivers this week proclaimed December 2-8
as Beef Week in Texas and urged Texans to salute the oldest
and largest industry on its 415th birthday. Texas Beef
Council president Leo Welder receives the proclamation.

Future Homemakers Give Yoe Student Assembly Program

Yoe Future Homemakers under
president of the senior chapter,
Gloria Harber, entertained the
entire student body of Yoe High
in Assembly recently.

The fourth period homemaking
class presented original lyrics to
a ditty called Que Sera Sera
which told of things learned by
girls in homemaking.

The sixth period class gave an
enthusiastic cheer for their FHA
flower the Rose.

Geri Kolodejak reported on
the state project of the FHA in
sending Christmas cards to the
State Mental Hospital. She re-
quested all who would to drop an
unsigned, stamped, unsealed
Christmas card in the box in the
clothing lab.

Carole Boyls reminded the
girls of the coming event when
the FHA King will be crowned
and asked them to nominate the
boy of their choice. She said that
he must meet certain qualifica-
tions as laid down by Janice
Bridges.

Marjorie Wilkinson told the au-
dience about the national project
which included the planting of red
roses. She asked the girls to get
in their orders and that some ro-
ses had been received. Mrs. Kelly
was given credit for making the
receipt of the roses possible.

Rita Ried narrated for a cere-

Tindall Dewhitt Now In Far East

Tindall L. Dewhitt, chief boat-
swain's mate, USN, son of Mr.
and Mrs. John McDermott of
Cameron, is serving aboard the
USS Castor in the Far East.

The general stores issue ship
returned to the Far East as the
first Pacific supply ship to carry
a consolidated load of both techni-
cal and general store materials.

While operating from her home
port at Sasebo, Japan, she will is-
sue supplies formerly handled by
four different type supply ships.

many planting the official red
rose while Marye Horstmann play-
ed soft background music.

The eight purposes of the FHA
were represented by a rose placed
on the bush. These purposes
were to blossom and to inspire
each member to carry out each
of the purposes.

Girls taking part were Mary
Ellen Richter, Marjorie Wilkinson
Janice Bridges, Mary Jo Varner,
Marie Mueck, Jeanette Richter,
Mary Alice Duncan and Mary
Frances Leskar. Gloria Harber
closed the ceremony by dedi-
cating the roses to the organiza-
tion and that we may ever be
mindful of the high ideals for
which they stand.

The entire FHA then rose and
sang the FHA National song.

The assembly program was re-
ported by Mary Ellen Richter,
reporter.

director of the group.

Former Jones Prairie Man Killed By Engine

Ramon Teran 58, of Lubbock
was killed instantly when he step-
ped into the path of a Santa Fe
switch engine in that city recent-
ly.

Teran was reared on the Sneed
Farm at Jones Prairie and for
the past four years, according to
his wife, had been suffering from
Parkinson's disease. She said that
he went out for a walk along the
tracks as was his practice almost
every day. The Terans lived only
a block from the scene of the ac-
cident.

H. F. Guelker, Slaton, engineer
for the switch engine, told au-
thorities he saw the man walking
down another track that ran pa-
rallel with the track his train was
on. Suddenly, said Guelker, he
walked right in front of my train.
I stopped as soon as I could, but
the train already had hit him.

Witnesses said Teran apparent-
ly heard or saw nothing and walk-
ed directly in front of the train.
Two engines and a caboose pass-
ed over his body, severing a leg
and causing multiple internal in-
juries.

Teran had lived in Lubbock 11
years. He was employed by
Southwestern Public Service Com-
pany before he became ill.

Survivors include his wife;
three sons, Ben Teran, in the U.
S. Army, Boney Teran and Jim-
my Teran, both of Phoenix, Ariz.;
six daughters, Mrs. Ester Guito-
rez, Mrs. Lucy Trevino, Mrs. Eva
Alonzo, Mrs. Micky Aguilar, Mrs.
Ramona Ramirez all of Lubbock
and Mrs. Cleofas Camerillo of
Floresville; 26 grandchildren and
one great grandchild.

Funeral services were held
from the Rix Funeral Home in
Lubbock.

It's that new V8 in the '57 Chevrolet.
It's as quiet as a contented cat and
as smooth as cream . . . and it's
cat-quick in response when you call
for action!

No household tabby sitting in a sunny
window ever purred more softly than
Chevy's new V8 engine. You can
scarcely tell when it's idling.

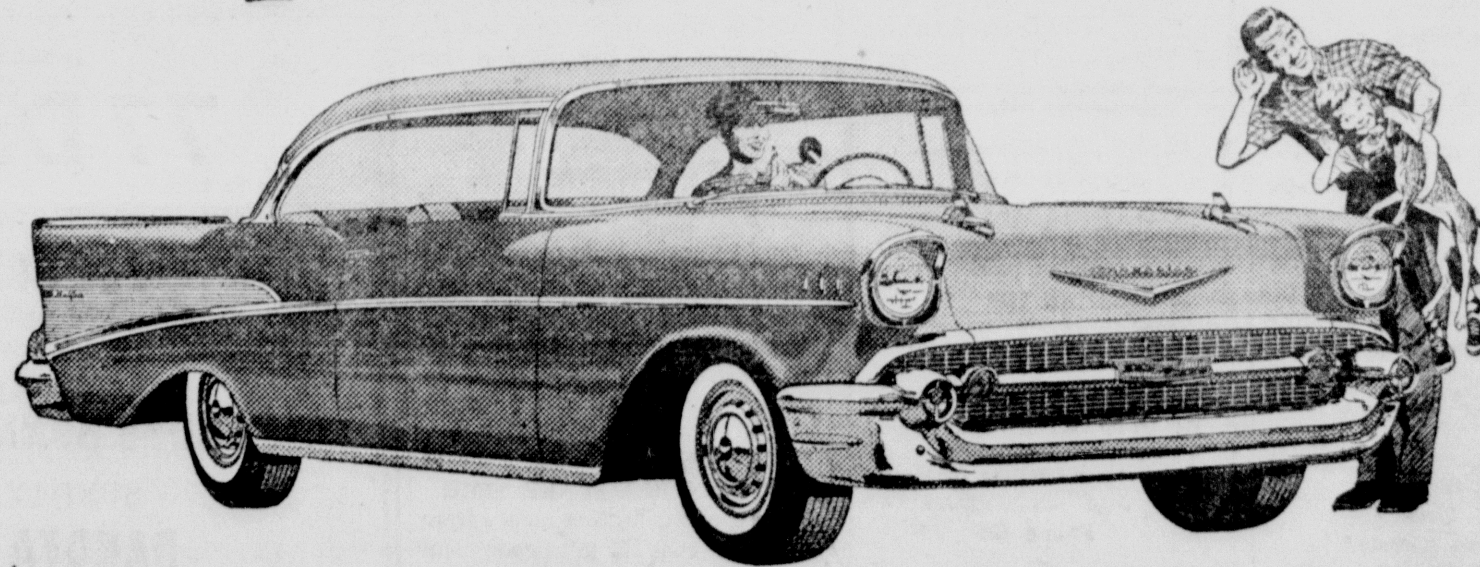

But when you nudge the accelerator,
you know it's there, all right! Its right-
now response keeps you out of highway
emergencies. It overpowers steep hills
with such ease they seem like level
landscape.

This new Chevrolet V8 puts up to 245
high-compression horsepower* under
your command! It's sassy, sure—but as
tame to your touch as a purring pussycat.
Come try the smoothest V8 you
ever put a toe to.

*270-h.p. V8 also available at
extra cost. Also Ramjet fuel
injection engines with up to
283 h.p.

Let Us Be Thankful...

Today the people of Cameron and Milam County are observing Thanksgiving. Originally set aside by executive order of the President of the United States as a day during which early citizens of the nation could give "thanks" to their God for His power in letting them have a free country with freedom of religion, freedom of press and freedom of enterprise.

During World War II, President Franklin D. Roosevelt changed the date from the last Thursday in November to the next to the last Thursday. Purpose of this was to allow industries in war time production to maintain sufficient flow of war materials to our servicemen around the world.

Today locally and nationally there is a great mix-up in which date to observe as Thanksgiving.

This mix-up causes some confusion among the people. However, whichever day you observe as Thanksgiving, the most important thing is to remember the reason for your observance of the day.

It is alright to attend sporting events, to have and to attend special parties and to enjoy yourselves. However, such is alright only if we one and all remember to view this one day of the year in the light for which the day was destined as a holiday.

Our people realized their accomplishments were great through a greater power than their own, their God, who was all powerful. With such great realization, they set aside one day annually during which they poured into their churches of the various faiths and honestly and earnestly "gave thanks" to their God for allowing them that for which they had been striving.

Today, let us each in our own way give "our thanks" both earnestly and honestly for all that for which we have to be thankful.

Excess Of Females

The dejuvenated, emotion-drained statisticians of the census Bureau claim that we have too many women. They say there is an excess of 1,000,000 females, with the tables of mortality mowing down more and more males all the time.

But does this explain why all million of them seem to be wearing pants and shopping at our neighborhood grocery? The demand for pants material is so great that they have run out of blue jeans and have taken to making breeches out of cheesecloth and lace curtains.

Even at that, the material has got so scarce that they are shortening the legs to where they aren't pants anymore; they are just Gandhi shorts. If the pants shortage gets any worse, the League of Widow Women is going to have to do something about it.

Christmas, A Time To Remember...

Christmas is less than a month away. Never is there a more suitable time to assist others, to make the day enjoyable for them and to remember them with cards, letters, visits and prayers.

Persons from our community are in private and state hospitals suffering of mental ills, tuberculosis, war time injuries and various other incurable diseases. In our very midst are those with too little and those who have reached an age when they cannot get away from home and have been forgotten by too many old friends.

Those, whom you know, will greatly appreciate a card, a small gift, a visit and a cheerful word. Give anyone of these to those otherwise forgotten and the smile received in return will be a great payment for so small and item.

From where I sit... by Joe Marsh

The Kid's Learned to "Take Charge"

I was down at Buck Benson's store the other day when a fellow came in with a six-year-old boy—obviously his son.

While the fellow was looking over some stuff on the counter, Buck handed a free peppermint stick to the boy, who promptly tore off the wrapper and went to work on it.

The father seemed quite put out about his son's lack of manners and held up his hand to stop him. "What do we say when Mr. Benson gives us something?" he demanded. "Charge it," replied

the kid without hesitation.

From where I sit, children aren't the only ones who "repeat things" without knowing what they're talking about. For instance, I'm convinced that many of those who speak out against the old American custom of enjoying a glass of beer after work are just parroting what they've heard others say. It's better to get the facts—then make up our own minds—and permit our neighbors to do the same.

LITTLE RIVER PHILOSOPHER WANTS INTERNATIONAL SYSTEM OF HANDLING PAST-DUE NOTICES INSTALLED HERE

Editor's note: The Little River Philosopher on his Johnson grass farm on Little River is mixed up on the international scene, his letter this week indicates.

Dear editor:

Among all the things I don't know anything about, the international situation, especially the Mid East, stands pretty close to the top, and while I'm not ashamed of this — why should I be ashamed when nobody in Washington or London is ashamed and they apparently don't know much more about what's going to happen next than you or me — still I keep on trying to pick up information on it here and there, and yesterday I picked up an idea from the international field that I would like to see adopted around here.

I noticed in a newspaper which blew out of a teenager's car as it went around a corner out here on two wheels — I think his car had weak tires on one side and he was trying to protect them by making the corner on the two good ones, who says teenagers don't think ahead — where the United States had sent Russia a note opposing Russia's plan to send troops into Egypt to help Nasser protect the Suez Canal, and the Russians had read the note, closed it up, and returned it marked "Unreceived."

This seemed to be customary diplomatic procedure, nobody in Washington was disturbed or surprised, and I've been wondering why we can't get up on the international plane around here and adopt this system in our own communications.

For example, if a store sends me a bill for a past-due account, with maybe a firm notice at the bottom like, "This bill is past due, PAY IT," and I could seal it back up, mark it "Unreceived" and mail it back and all he could do was shrug his shoulders and say, well, he out-smarted me that time, and go on to other business, then life would sure be a lot more even-tempered around here.

Off-hand, I can think of dozens of uses this system could be put to, it would be first-rate for handling bank correspondence along in the fall of the year when notes come due, it would sure solve the medical expense problem from the patient's standpoint, would be handy in handling small matters like cafeteria bills kids bring home from school, in fact, everybody can figure out his own uses system has any possibilities, I

for the system, without any help from me.

If you think this international wish you would try it out and if you get by with it, even fifty per cent of the time, let me know immediately.

Yours faithfully,
J. A.

Letters To The Editor...

(Editor's Note: — The following was received in response to The Herald's request for letters concerning the greatest need for Cameron. Opinions in the letters are not necessarily those of The Herald.)

Dear Editor:

In my opinion the main need of the city of Cameron is a recreation center for the city's teenagers.

Of course, since I'm one of those teenagers, the older generation might get the impression that we just want the center for fun. That is true, we want to have fun, but we want a decent place to have this fun.

We can go to various places, which are supposed to be teen age hangouts, we can't dance there, there are no games to play and we can't turn the juke box up so it can be heard. No, there are none of these things available in Cameron.

This juke box deal should be discussed further, I think. If we turn it up so we can hear it, the owner turns it down. Why? I'll tell you why, the older generation's ears just can't take it and naturally the owner must keep his customers; the older generation, that is. He knows the teenagers will come back. Why? I'll tell you, they don't have another place to go so why should he worry; sure they'll be back!

This recreation center will give the teenagers a place to go and they wouldn't be in trouble all the time for some foolish idea which we now call fun. For example, we don't have anything to do and everything is dull, so we try to find some excitement. While doing this, we get in trouble with the police, such as speeding, running stop signs and red lights. All this could be avoided with a little help from the city.

County Agent Moore Describes Salt And Meal Mixtures Used

By J. D. Moore,
County Agent

In the last 20 years many operators have resorted to self feeding cottonseed meal and salt mixtures.

This has saved labor and provided uniform distribution of feed. Good results have been ascribed to the practice particularly when water was close by with available forage. Theoretically at least the principle of conserving energy in that high intakes of salt demands high intakes of water, and the heat required to raise the water to body temperature practically equals the maintenance requirement.

Commonly, salt and cottonseed meal mixtures range from 10 to 40 percent of salt. Other salt mixtures may contain ground grain. One such mixture consisting of two parts ground sorghum grain, two parts cottonseed meal and one part salt is described by the Astralians as a salt fodder.

Ranchmen who have experienced feeding salt and meal mixtures make the following suggestions for their use:

Feeding salt in combination with meal to limit consumption of the meal, to save labor and equipment with possibly less handling of livestock is deemed than now.

This recreation center will take a load off the police, especially "Brandy," as the teenagers all call him for short.

I'm just one of the many teenagers in Cameron, but I feel sure that if the city will give us this take good care of it.

It will be appreciated by the teenagers, the police and the parents of teenagers.

Sincerely Yours,
Nancy Buchanan.

an emergency drouth measure. An adequate supply of clean water and plenty of roughage (dry feed or grass) should be available for meal-salt feeding to be practical over any extended period.

The greater the ratio of meal to salt (three to one or better), the less chance there is for permanent injury or death loss to the stock. If high energy feed such as corn, wheat or oats can be included to provide the major portion of the ration with meal and salt, results will be much better.

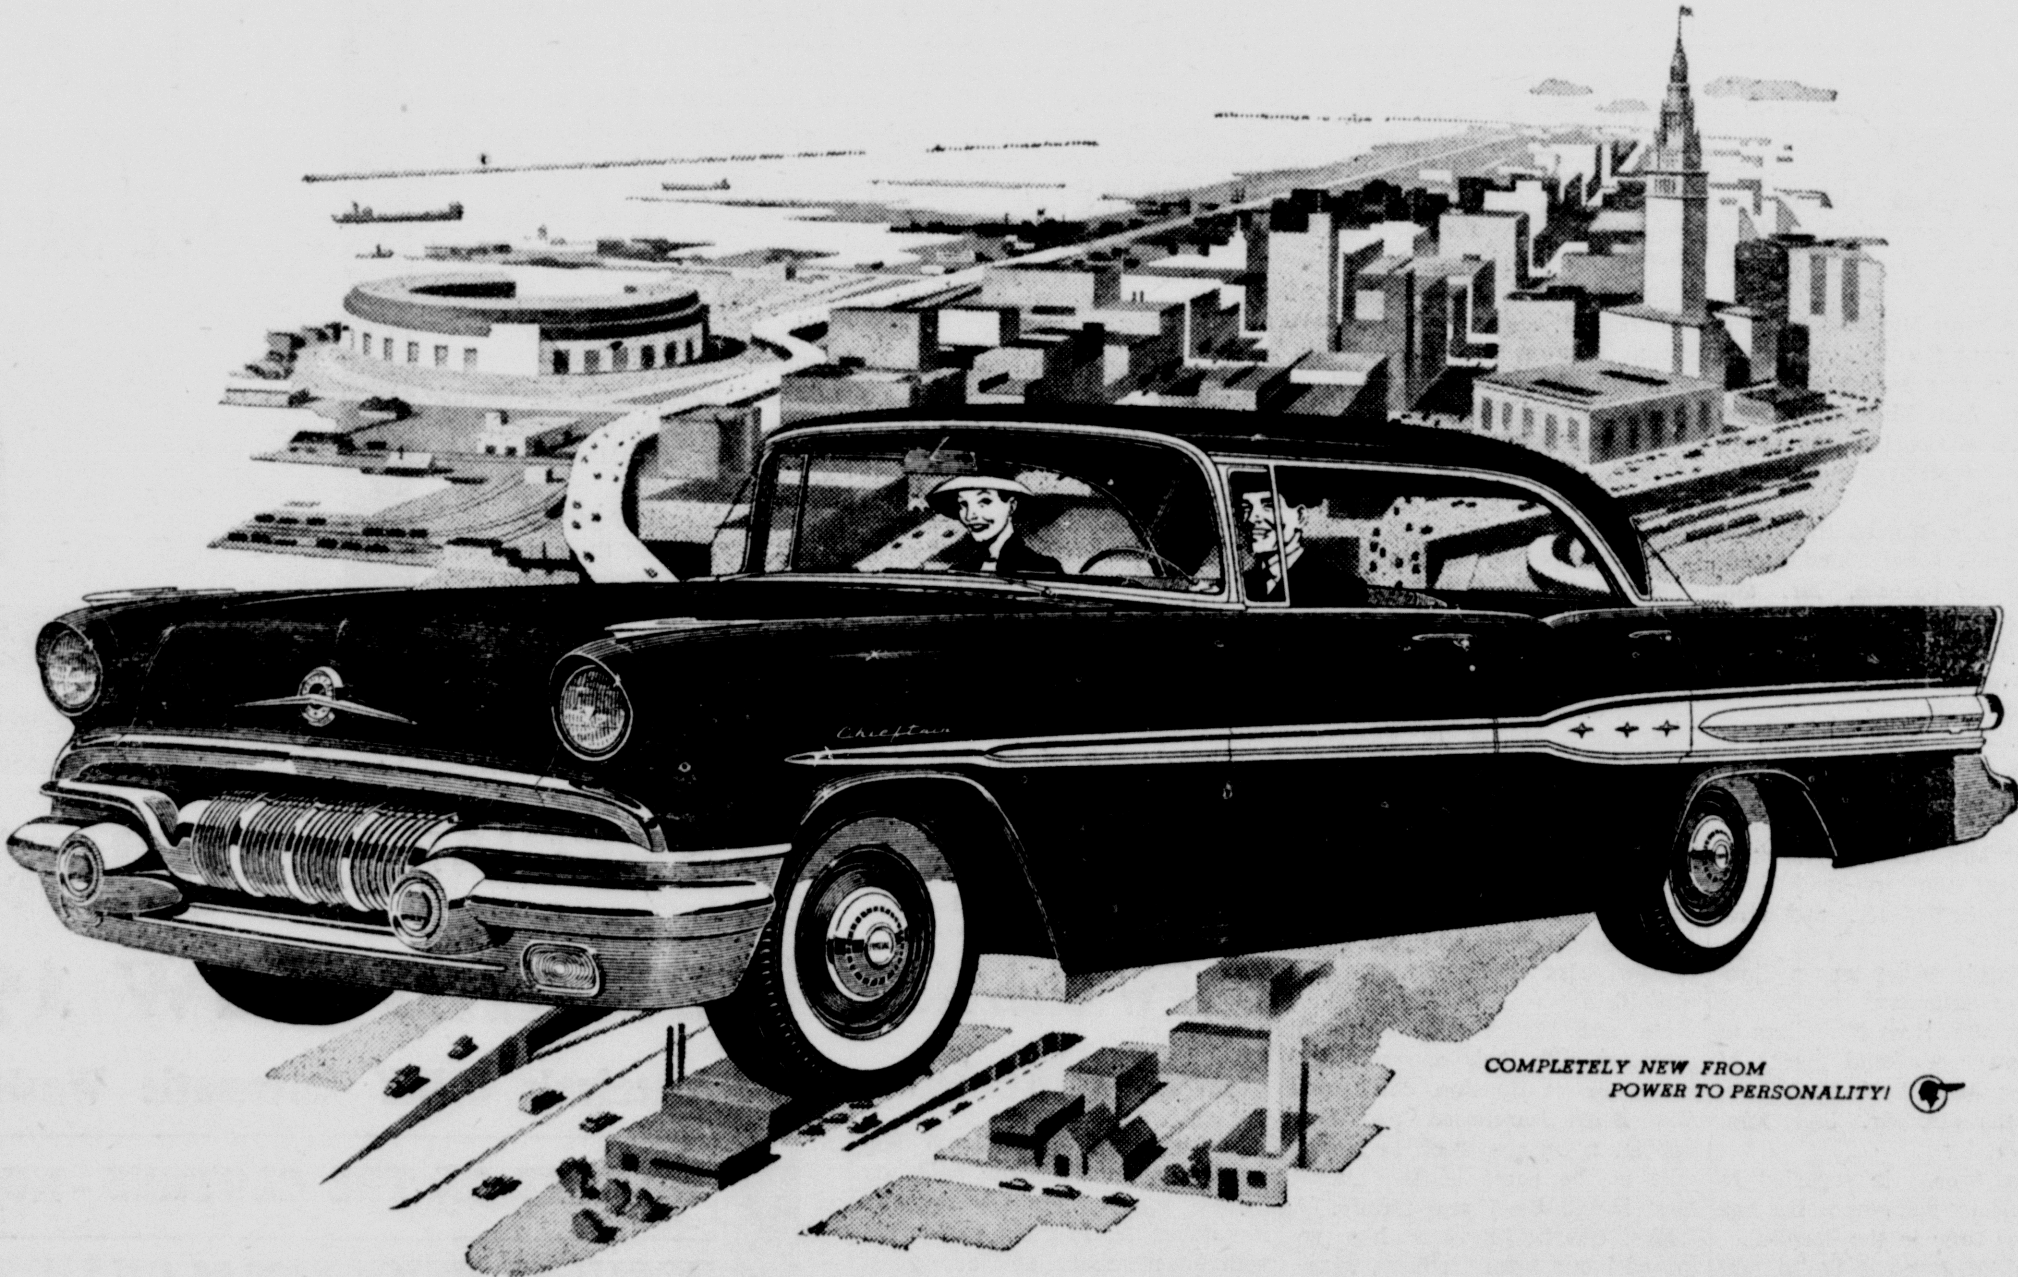

Some operators feed the salt and meal mixture for three or four weeks then feed carbonaceous feeds for a like period. Such ration changes are much more advisable than straight salt and meal feeding over a period of three to six months or more. Location of the self-feeder will have an effect on the amount of salt needed in the mixture.

When a feeder was located about a mile from water, livestock ate no more of a 10 to one mixture than they did of a three to one mixture located near the water. The animals eating the 10 to one mixture made better utilization of the roughage available.

With native forage very scarce in most areas, salt-meal feeding without supplying some type of roughage feed is not advisable. Ranchmen have been able to get by with such a practice in the past reasonably well but they did have more forage on the range

Milam Cotton Growers Will Vote On Marketing Quotas

Cotton growers have an important decision to make on Tuesday, December 11, Marvin Petty, chairman of the Milam County Agricultural Stabilization and Conservation Committee, reminds farmers.

On that day, growers will vote in a referendum to decide whether marketing quotas will be in effect for their 1957 upland cotton crop. All farmers, who engaged in the production of upland cotton in 1956, will be eligible to vote in the referendum.

"If at least two-thirds of the growers voting approve the quotas", Petty explains, "marketing quotas will be in effect on all farms growing upland cotton in 1957, penalties will apply on 'excess' cotton and price supports to those growers, who comply with their cotton acreage allotments, will be available at the full level of effective supports. Under current legislation, this support will be between 75 and 90 percent of parity, the minimum level within this range depending upon the supply situation at the time the determination is made. If more than one-third of the

growers disapprove quotas, there will be no marketing quotas or penalties, but price supports to eligible growers (who comply with their allotments) will be available at 50 percent of parity. In either case, acreage allotments will continue in effect for the 1957 cotton crop as a means of determining eligibility for price support.

The chairman pointed out that the Secretary of Agriculture is directed to proclaim marketing quotas for the next upland cotton crop when the cotton supply exceeds normal. Quotas are not put into operation, however, unless they are approved by at least two-thirds of the growers voting in a referendum on the question.

All Milam Stockmen Entitled To Lower Freight Rate Certificates

All stockmen in designated drought areas are now entitled to freight rate certificates under the revised authorization which places authority to execute certificates in the hands of the county judges instead of the Farmers Home Administration.

Roy M. Wright, county supervisor for the Farmers Home Administration, said "Heretofore, FHA Supervisors were authorized

to execute certificates and only stockmen who were eligible for emergency feed could obtain the certificates. This revised authorization however will extend the benefits of reduced freight rates to all stockmen in designated counties."

Effective November 15, Governor Shivers re-delegated to all county judges in designated drought counties in Texas the authority to execute the certificates.

RECIPES... HOUSEHOLD HELPS

By Julia Hunter
HOME ECONOMICS DIRECTOR, LONE STAR GAS COMPANY

A lot of fixing is required for the traditional Thanksgiving and Christmas menu of "turkey and all the trimmings".

But its fun and preparation time is reduced if you study your holiday season cooking project in advance. How much to buy? It takes from 1/2 to 3/4-pound of ready-to-cook weight turkey per person. This allows for second servings and left-overs.

Unfrozen ready-to-cook turkeys should be cleaned thoroughly and pin feathers removed with tweezers or paring knife. Feel inside the bird along ribs and remove any bits of lung. Cut out the oil sac above the tail. Wash the turkey inside and out under cold running water. Place in gas refrigerator at once. Keep in constant refrigeration and use within two days of purchase.

A frozen ready-to-serve turkey should be thawed in original wrappings in refrigerator two or three days, or thaw the unwrapped turkey in a pan set under cold running water 4 to 6 hours. A wrapped frozen turkey may be stored in the refrigerator one day, then thawing completed under cold running water. Once the turkey is thawed, proceed as for unfrozen turkey.

cord, Tie drumsticks to tail.

Stuffing Important

It is important to stuff the turkey just before roasting. Stuffing and freezing or storing in the refrigerator before roasting is not recommended. Preparing the dressing in advance and freezing the turkey and dressing separately is not recommended. The dressing will become soggy.

The turkey, no matter what size, should be cooked in a pre-heated oven at a temperature of 325 degrees F. Cooking time depends on size of the bird. If the turkey is roasted unstuffed, cooking time should be reduced approximately 15 minutes per pound. Doneness of meat may be judged by whether the drumstick can be moved up and down easily and whether the thigh meat or thickest part of the drumstick feels soft when pressed with the fingers.

RECIPE OF THE WEEK

Cornbread Dressing: Soak 6 cups broken cornbread, 4 cups broken biscuits or white loaf bread in 4 cups stock from giblets or in 4 cups milk or water. Sauté until golden 1 1/2 cups chopped onion, 1 cup chopped celery (part leaves), in one-third-cup of hot fat. Combine bread and onion mixture with 4 eggs, well beaten; 2 teaspoons salt, 1 teaspoon pepper, 1 teaspoon poultry seasoning, if desired, and sage, as desired. Add 4 cups stock from giblets, or 4 cups milk or water to the mixture, or enough to thoroughly moisten it. Mix well. Stuff bird. If dressing is baked separately, bake in shallow uncovered baking dish in moderately low gas oven (325 degrees F.) 1 hour. Yields 12 cups. If very light, fluffy dressing is desired, add 1 teaspoon baking powder.

A moment is arrested with a click of the shutter, and Santa becomes part of a priceless picture-record. The holiday season offers a thrilling choice of subject matter, no less important to the youngster than to the older members of the family. The average eight-year-old is ready for his own camera. Good gift-tip is a sturdy box-type, such as the Brownie Hawkeye Camera, which is simple enough for the beginner, and competent enough for family use. The addition of flash attachment, bulbs and batteries will provide the older, more experienced child with extra picture-taking pleasure he can enjoy now and for years to come.

Hays Seeks 'Helping Hand' From Ladies

Postmaster John Hays, who here in 1955, the Postmaster urged that you take the following steps at once: Check your Christmas card lists very carefully - make sure that each address includes the full name, street and number, city, zone and state. Then, secure Pamphlet No. 2 at the Post Office, telling you all about Packaging and Wrapping Parcels for Mailing, and Pamphlet No. 3, giving full details on Domestic Postage Rates and Fees. Stock up on stamps at the same time.

Also, ask for free labels reading "All For Local Delivery" and "All For Out of Town Delivery", so that you can speed arrival of your Christmas Cards by sorting and tying them in two separate bundles with the addresses all facing one way.

A modest investment in heavy wrapping paper, sturdy empty cartons, strong cord and craft paper adhesive tape will pay big dividends in safe deliveries of your cherished Christmas gifts. If you'd like to include your Christmas Cards or letters inside the packages with your gifts, just add the appropriate First Class mail postage to the postage for the packages themselves. This combination mail service recently introduced by the Post Office Department insures simultaneous arrival of your gifts and greetings.

Remember, that only Christmas Cards carrying three cents, or six cents Air Mail postage, may include a personal message. Nothing more than a signature is authorized on cards mailed at the two cent Third Class rate, and be sure your return address is on every Christmas Card envelope - this is socially correct, and helps both you and your friends to keep your mailing lists up-to-date.

After your gift wrapping and packing is complete and your Christmas Cards are addressed and stamped, plan your mailings so that those for the most distant points go first. Try to get all long-distance mailings into the Post Office before December 10th and those for nearby points should be mailed by December 15th.

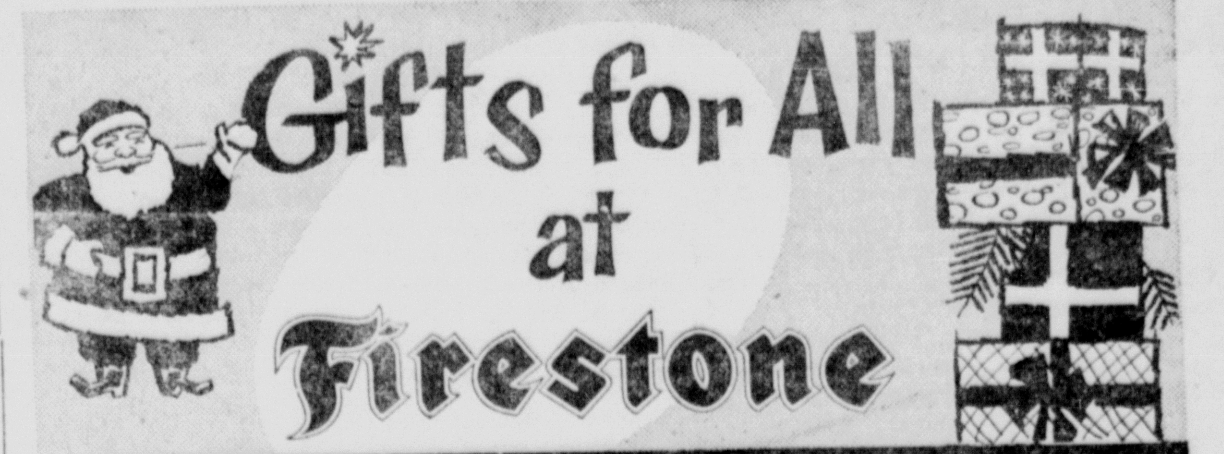

Here's How To Help
Predicting that this year's Christmas mail will set a new all time record, exceeding even the 1/2 million pieces of mail handled

Milam County Needs Moisture

Soil moisture for the week ending Friday, November 23, was "only fair" according to J. D. Moore, Milam County agricultural agent.

He further stated the soil moisture was good for all types of

plowing but was not good enough for small grain growth. Concerning the small grains, Moore indicated they need a good rain since they are shallow rooted and exposed to damage from high, dry winds. Some spider mite damage has been done to oats. This is particularly true on land where oats have been planted to follow previous crops of oats.
Moore described the livestock food situation as remaining critical. In the county last week, he said there were 63 applications approved for 581,300 pounds of grain and 12 applications approved for 72.5 tons of roughage.
Farm labor for the week was described as "not critical."

Peanut Farmers Vote On Quotas

Peanut farmers of Milam County will vote in a referendum on Tuesday, December 11, to determine whether marketing quotas will be used for the 1957, 1958, and 1959 crops of peanuts. A similar vote is being held on the same day in all areas where peanuts are grown.

According to Marvin Petty, chairman of the County Agricultural Stabilization and Conservation Committee, all peanut growers are eligible to vote in the referendum.

Explaining that the Secretary of Agriculture is directed by law to proclaim peanut marketing quotas, Petty stated that each year, between July 1 and December 1, the Secretary must proclaim the amount of the quota for next crop.

This quota is converted into a national acreage allotment which is apportioned to states and to

farmers who are entitled to share in 1956-crop peanuts planted for harvest as nuts on a farm with more than one acre of peanuts planted. Also, all growers who participated in the 1956 Peanut Acreage Reserve of the Soil Bank on more than one acre will be eligible to vote.

At least two-thirds of all farmers voting must approve the quotas before they may be made effective. If marketing quotas are not approved, they will not be used for the 1957 peanut crop, and another vote will be held next year on quotas for the following three crops.

Mesdames Ivy Rhea of Temple, Ed Rinn of Yoakum and Miss Elda Rinn of Houston were recent visitors in Cameron.

farms according to provision of law. All farm operators will be notified in writing of their farm acreage allotments prior to the referendum, Petty said.

Farm marketing quota is the quantity of peanuts produced on the farm acreage allotment. Under the marketing quota program, peanuts produced on a farm where the 1957 peanut acreage is larger than the allotment will be subject to a marketing penalty.

If the growers vote approval of quotas, price supports on 1957 crop peanuts will be available at the full level of available support to peanut farmers who comply with their peanut acreage allotments. If growers oppose peanut quotas, the level of support on the 1957 crop will drop to 50 percent of parity.

Dec. 3 Deadline Set On Roughage Feed Program

Applications totaling 1655 for Emergency Feed Grain and Roughage have been received and processed by the local Farmers Home Administration Office, according to Roy M. Wright, County Supervisor. Of this number, 1125 applications were for grain and 530 were for roughage. A total of 9,657.30 pounds of grain and 6,958 1/2 tons of roughage has been approved for farmers and ranchers of Milam and Burleson Counties. The dollar value of this assistance amounts to \$177,733.

The emergency feed grain and roughage programs are meant to help established farmers and ranchers, who are primarily engaged in farming and ranching, to maintain their basic herds of cattle, sheep and goats, if their circumstances are such that this assistance is needed, Wright said. The local Farmers Home Administration committees have the responsibility to determine the eligibility of individual applicants and to approve the amount of feed each applicant may purchase under the program.

Two hundred and thirty three counties in Texas are designated under the emergency feed grain and roughage programs. In these counties, eligible applicants are helped in buying corn, oats, barley and grain sorghums, or approved feed mixtures containing either 60 or 75 percent of these grains through a Government subsidy of \$1.50 per hundred weight. The Federal Government bears the full amount of this subsidy. In addition to the emergency feed grain assistance, eligible applicants are helped to buy hay or other approved roughage to maintain their basic herds. Under this program applicants receive a Federal subsidy of \$7.50 per ton of roughage actually bought.

Under the present designation applications may be filed through December 3, 1956 for a supply of feed grain and roughage to carry basic livestock herds through December 31, 1956. Applications will not be accepted by the local Farmers Home Administration office after December 3, 1956 unless the program should be extended.
